

# Woodstock Chamber of Commerce Retail Directory | 2011

The Retail Focus Group has met several times and discussed common goals and needs. Most agree that the more the businesses work together the healthier our retail environment will become. To that end, we need to know a little bit about one another so we can say to our customers “No, I don’t carry that item but you can find it at The Market”. What follows in this newsletter is a mini retail directory. This is provided for your information and will be available online. Should it be a useful resource, we will look at how it might be developed further.
